

Reception Class Round-Up

29 June 2018

Some of the things the children have been learning...

We had a visit from Mrs Wright, Oliver's mum, last week who talked to us about her job as a veterinary nurse. The children were totally absorbed in her presentation and some interesting questions were asked. The children loved the chance of bandaging their poorly toys. The visit fitted in fabulously with our 'Growing and Changing' work as we have been learning about animals and their babies. A huge thank you from all of us in Reception.

We have planted dwarf beans that have already started to grow – some children are quite convinced that they will grow into beanstalks. The cress we planted has also started to sprout but the lobelias are showing little sign of life.

Our trip to Stratford Butterfly Farm has reinforced our learning about how a caterpillar grows and changes. Once again the children behaved beautifully and it was a pleasure to take them as little representatives of Crescent School.

How to help your child at home...

Take a trip to the library and share some books. Many libraries will offer summer activities and challenges that appeal to young children.

Encourage the children to write a diary, Mrs Emery would be very impressed!

Most importantly have fun!

In phonics we have been introduced to blends...

Thank you...

This is the final 'Round Up' this academic year. It's hard to believe where the year has gone. I've shared the beginning of my journey at Crescent with the class and I think we've all made a great start. I couldn't wish to work with a better group of children and it truly has been a pleasure to teach them. Thank you for all of your continued support and for making this year such a special one.
