

My Botanical Gardens Visit by Sophia K

On Tuesday the 3rd of June, Year 6, went on a field trip to the Birmingham Botanical Gardens. Our first session was animal handling. We got to hold a stick insect, hissing cockroach, a giant African land snail, lizards (one of which was a bearded dragon). I enjoyed it so much!

Afterwards, we ate our lunch and had a break and then went rolling down the hill in the gardens.

Next, we went into the glasshouses and had a look at several plants such as wild bananas, prickly pear, cacti, pitcher pods, venus fly traps and sundew.

Finally, we explored around the place and then travelled back to school.

The Botanical Gardens

The first thing we did in the botanical gardens was... holding animals!

We held stick insects, a hissing cockroach, a giant african land snail.

We also held a snake, 2 lizards one of which was a bearded dragon.

The Botanical Gardens

After the animal handling we saw a lot of plants.

Some of the plants we saw include a prickly pear, cactuses.

We also saw some pitcher pods, venus fly traps and sundew

To top it off, we saw some wild and cultivated bananas

The Botanical Gardens

Lastly, we went to the
japanese garden

We saw bamboo and lots of
different species of trees as
bonsais.

**In my opinion, the
botanical gardens was
amazing.**
