

# STONE AGE

---

BY SIENNA MORAN

# ABOUT STONE AGE...

---

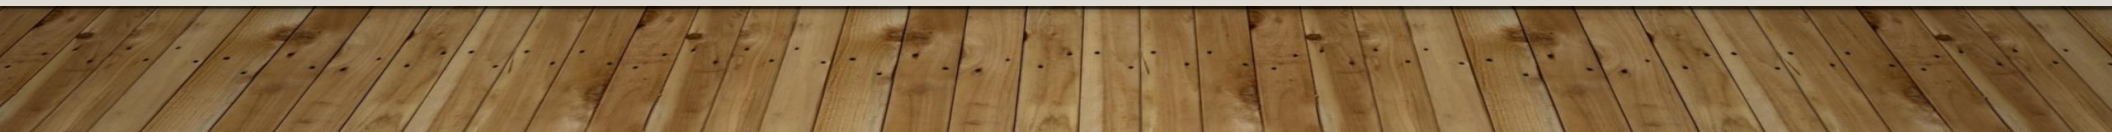

- It was from roughly 30,000 BC – 3,000 BC
- The Stone Age was given its name because it was the earliest recorded time when stone tools were first used.
- Stone Age had 3 stages of life called – paleolithic, mesolithic, neolithic ( old, middle, new)
- The paleolithic and mesolithic period were hunter gatherers which mean they hunted for food and gathered fruit and berries. The neolithic period was the development of agriculture and farming which meant people began to settle in their communities.

# EVERY DAY LIFE...

---

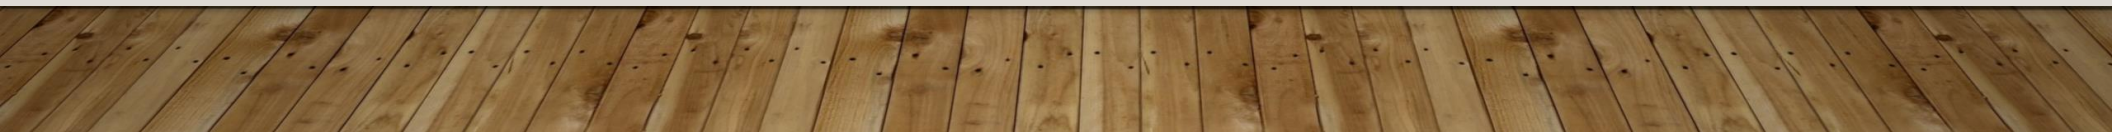

- Their only goals in life were to: Protect themselves against animals, to find food.
- They lived in caves hence how they got their name caveman from! They often created paintings on the wall of their caves most often of animals.
- In the palaeolithic period of the stone age they moved around a lot so they could get food and shelter, in the mesolithic period they began to make huts using reeds and mud, in the neolithic period they made permanent homes from wattle and daub.
- They used stone tools to light fires and to hunt animals!

# COMMON ANIMALS THEY WOULD SEE ON A DAILY BASIS...

---

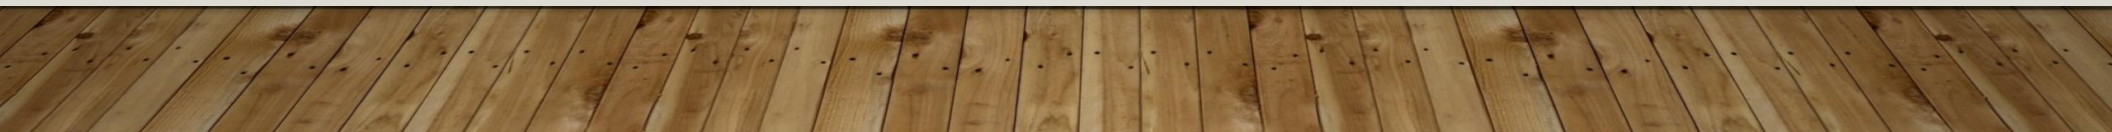

- Woolly mammoth ext
- Woolly rhinoceros ext
- Cave bear ext
- Giant bear ext
- Hyena
- Hippopotamus
- Wild bear
